March 16, 2020

Dear Mech-Tech Institute student:

On March 27, 2020, the United States of America Government approved the *Coronavirus Aid, Relief and Economic Security (CARES) Act*. This economic stimulus contemplates different sectors including educational institutions due to the worldwide emergency caused by the COVID-19.

The determination and criteria of these funds are assigned by the United States Department of Education (US ED). For Mech-Tech Institute, our students are a priority which is why a procedure was designed to meet the requirements established by the US ED for granting the funds. The financial aid that you will receive will be to cover for one or more of the following costs: materials, technology, food, housing, medical expenses, childcare, among others related to the emergency.

Mech-Tech Institute maintains its compromise with the student community. We will soon offer additional details regarding the distribution of the aids.

Cordially,

Edwin J. Colón Cosme
President
